

# Avaya Scopia® Desktop & Scopia Mobile Webcams, Speakerphones and Headsets

## Recommended Solution

While we support the entire list of webcams, headsets, and speakerphones on the other side of this sheet, we specifically recommend the following video and audio devices:

- Logitech Pro Webcam C920 - personal webcam and
- Jabra SPEAK 510 portable USB/BT speakerphone or
- ClearOne Chat50 (Part # 910-159-001) USB speakerphone
- Jabra UC Voice 750 Duo USB headset

- Logitech BCC950 ConferencCam - group conferencing camera with pan/tilt/zoom, remote control and built-in speakerphone

Pair either of these solutions with good bandwidth (a wired connection is preferred over a wireless one), a solid computer (see Scopia Hardware requirements), our service and you have a robust, scalable, multi-point, video conferencing solution with built-in data sharing based on industry standards.
